

Teen Photography

Katie Ellement (Katie Ellement Photography)

Course Description: Come learn how to take perfect shots with your own camera. Learn about Aperture, Shutter speed, Light balance and ISO. Students are encouraged to bring in their own cameras as settings are different between brands. Students will have a chance to take pictures throughout the term, learning step by step and get plenty of one on one help. There will be different subject matters opportunities throughout the course.

When students bring in their own camera, parents will be asked to sign a waiver that The Art School of Peterborough is not responsible for any damages that might occur during the duration of the course.

Week 1: Camera Basics

Week 2: Composition
